**Renowned historian and coastal expert Dr. Scott Dupree presents a comprehensive exploration of the most devastating hurricanes to hit the Carolina coast.**

## **Overview**

Attacks on the Carolina Coast is a gripping account of the hurricanes that have shaped the history and landscape of North Carolina. From the earliest recorded storms to the catastrophic hurricanes of recent decades, Dr. Dupree provides a detailed and engaging narrative of these powerful forces of nature.

The book is meticulously researched and draws upon a wealth of primary and secondary sources. It includes stunning historical photographs, maps, and diagrams that illustrate the magnitude and impact of these hurricanes.

## **Table of Contents**

- Chapter 1: The Early Years: Hurricanes Before 1800
- Chapter 2: The 19th Century: A Century of Destruction
- Chapter 3: The Great Atlantic Hurricane of 1944
- Chapter 4: Hurricane Hazel: The Storm that Changed North Carolina
- Chapter 5: Hurricane Floyd: The Flood of 1999
- Chapter 6: Hurricanes of the 21st Century: Isabel, Matthew, Florence, and Beyond
- Chapter 7: The Impact of Hurricanes: Past, Present, and Future

## **About the Author**

Dr. Scott Dupree is an award-winning historian and professor of coastal studies at the University of North Carolina at Wilmington. He has spent decades researching and writing about the history of hurricanes and coastal disasters. His work has been featured in numerous publications, including The New York Times, The Washington Post, and The National Geographic.

Dr. Dupree is a sought-after expert on hurricanes and has provided commentary for major news networks such as CNN, MSNBC, and The Weather Channel. His research has informed public policy and emergency planning efforts at the local, state, and federal levels.

### **Testimonials**

"A must-read for anyone interested in the history of hurricanes. Dr. Dupree's research is meticulous and his writing is engaging."

#### **- Dr. Sam Brody, author of Natural Hazards: Disaster Mitigation and Resilience**

"A comprehensive and well-written account of the hurricanes that have shaped the Carolina coast. Dr. Dupree has done an exceptional job of bringing these storms to life."

#### **- Dr. Jeff Masters, co-founder of Weather Underground**

"An important contribution to the literature on hurricanes and coastal disasters. Dr. Dupree's work provides valuable insights into the risks and challenges facing coastal communities."

#### **- Dr. Katharine Hayhoe, chief scientist, The Nature Conservancy**
